

## Invitation to PhiloDay 2022 @EEB4

**16-17 March 2022**

Dear teacher, colleague, coordinator,

Our philosophy department, with the cooperation of colleagues in the other language sections (German, Italian, French, and Dutch), is organizing **PhiloDay**, an academic event that is open to philosophy practitioners at the school, university, and research levels. After the success of the second edition (which was held fully online) in 2021, we decided to continue the adventure in this manner.

We will provide pupils in the later secondary cycles (s5, s6 and s7) the space in which they can meet people from the world of research and academia who are experts in various areas of philosophy and related disciplines.

The main activity of the day will be organized in the form of one-hour workshops whose themes will be linked to the exploration of the notion of “**hybridity**”, approached through philosophy and related disciplines (the natural sciences, human sciences, art, literature, and so on). The main idea of this day is to take students out of the classroom in order to help them discover the lively and varied forms of philosophy in other and broader contexts. In addition to the workshops, there will also be General Assembly lectures, the Ethical Dilemma Impromptu competition, and the Philosophy Commission. Descriptions of these activities can be found at the following address: <https://eeb4.be/philoday/>.

We will hold this event on **Wednesday the 16<sup>th</sup> and Thursday the 17<sup>th</sup> of March 2022**, from **8:15 am to 4:00 pm**. This event will be completely online.

We would be very glad to know if teachers, professors, and researchers in your Department of Philosophy would be available to take part in this project.

Your participation in this third edition of PhiloDay would be greatly appreciated and we are convinced that it would make a real contribution to the development of our pupils!

Should you have any questions or need further information, do not hesitate to contact us.

Cordially,
