Title: Cultural diversity within one person. Double names in Hellenistic Mesopotamia

Description:

Speaker: Tom Boiy started to study Ancient History out of love for the Romans; during these studies he got more and more interested in the empires of the successors of Alexander the Great and switched Assyriology to be able to use the cuneiform sources. When starting at the EEB4 11 years ago he found his first love again with Latin and Roman history and with this talk he is returning a bit to Mesopotamia and the Near East in general.

**Presenter:** Prof. BOIY, Tom (EEB4)
